## A Letter from the President/CEO

When asked as a little girl what I wanted to be when I grew up, I would not have answered a CEO of a Credit Union. However, with a 26-year career in credit unions, I can honestly say I am exactly where I am supposed to be. When I started at SEG FCU in 1996, the world looked a lot different, and in so many ways, it was more...simple. Most of us would agree that the world we are living in today looks very little like the world of our youth. While we can look back with fondness on the days that have gone by, great strides have been made to make life “easier” for consumers. We live in a time when you can get two-day delivery for things ordered online, your groceries delivered to your front door, visit the drive-thru for a soda or get curbside delivery. And while all these things offer great convenience, we cannot underestimate the need for human interaction.

Our goal at SEG FCU is to evolve our technology and services to best assist our members with managing their finances, but also to keep the personal connections with our members. I encourage our members to reach out and let us know what we can do better, what you would like to see us offer, and what you like about what we are doing. My philosophy is – When you know better, you do better.

Let’s be better together.
